COUNCIL FAILS TO PASS MEASURE FOR DEMOLITION OF OLD CITY BUILDING

**Goes Over to Next Meeting When It
Will Again Come Up For a Third or
Final Reading in Council
Chamber**

CITY SOLICITOR SCORES MEMBERS FOR THEIR ACTION

**Claims City Will Be Subject to Heavy Penalty if State
Fire Marshal's Orders are Not Heeded—The First
Meeting Held in New Quarters of Council in
the Trust Building.**

Fear for the success of the sub-way proposition was blamed for the delay in passing legislation at the first October meeting of the city council for the destruction of the old city hall building in compliance with an order from the state fire marshal's office. The resolution authorizing the service director to raze the building was up for its second reading. A motion to lay the bill on the table was lost by a tie vote, Messrs. Keller, Payne, Prior and Stasel favoring the motion. Messrs. Baker, Muenz, Beckman and Dwyer voted against tabling the measure. Mr. Muenz offered a motion to suspend the rules, place the bill on its third reading and final passage, but this motion to suspend rules was lost. Messrs. Dwyer, Keller, Payne, Prior and Stasel opposing this move. The measure will come up for its third reading at the next meeting of council when it will be defeated on final passage unless there is a change of heart on the part of some of the councilmen.

City Solicitor Jones took this opportunity to score the councilmen on their failure to adopt the measure. "I want to make a statement here and now," said Mr. Jones, "so none of you can say at any time that the council was not sufficiently advised in this matter beforehand."

"This building has been condemned by the state fire marshal and his action is supported in law. A penalty is provided for each day after the time limit expires that the building remains standing. In addition to this, the fire marshal is empowered to destroy the building with his own men, which will be more expensive to the city than if the work is done by our own officials."

"The building has been vacated and there is no valid excuse why it should remain standing."

Several councilmen talked on the matter, some holding that the measure was not specific enough and that some provision should have been made for the service director to receive bids for the building or for the destruction of it. One declared that the building was as good as it ever was and that "twenty traction engines couldn't pull it down."

Another declared that the building was worthless and that no one would offer a nickel for the structure, as it stands. It is understood that the service director can use most of the material in the building for smaller

structures used by the city in various ways.

Monday night's meeting was the first held in the new council chamber on the second floor of the Trust building. All members of council were present with the exception of Mr. Dayton, of the Sixth Ward. He was excused. Clerk Franklin was also absent. The council elected Mr. Baker, clerk pro tem, and Mr. Baker deputized Service Director McCarthy to act as clerk. Mr. McCarthy served several years as council clerk so the duties were not strange to him.

After the reading of the minutes, by acting Clerk James McCarthy, the council settled down to business. Mayor Swartz sent to council his appointment of James R. Fitzgibbon and E. C. Wright as members of the board of trustees of the public library.

Mayor Swartz submitted his monthly report showing: Licenses collected, \$252.50; fines (city cases) \$35; costs (city cases) \$77.40; fines collected (state cases) \$115; mayor's fees collected, \$68; officers' fees, \$34.

City Solicitor Jones reported that he had caused steps to be taken against Newark banks to recover interest on waterworks funds resulting from the sale of bonds several years ago. He has also taken steps to condemn property owned by Bert M. Hay in North Third street for the opening of Norton avenue.

The service director reported that he had caused plans to be proposed for a drainage sewer in Union street. The estimated cost is \$25,543.

Safety Director Collier called to the attention of the council the advisability of disposing of the old No. 2 fire station in East Main street. It is now used to store the old steam fire engine and a couple of boats used by the police department on occasion of floods, etc.

Council Clerk Franklin certified to council that notices to build sidewalks had been served on property owners on a dozen or more streets. The city is now free to go ahead with the construction of sidewalks on these streets. He also certified that notices for sewers and street paving on many streets had been served and that 15 days had elapsed since the service of the notices.

The trustees of the Newark Library submitted its annual report. The report showed that the library now has 6,433 volumes on the shelves, an increase of more than 1,000. There were circulated 46,763 volumes during the

last year, an increase of 10,172 over the previous twelve months. The librarian also called attention to the improvement in the character of the books issued. The treasurer reported funds received and paid out amounted to \$446. The support received from the city is used to pay the library staff. The president of the board asked an appropriation amounting to at least \$125 per month for maintenance of the library.

A petition from a resident of Oakwood avenue offering a lot to the city for the sum of \$150. The matter was referred to the public service committee.

A communication from the Natural gas company calling council's attention to the damage done to the gas and water mains by electrolysis. The danger of explosion from escaping gas entering the cellars of homes was explained. It was suggested that the street car company install the double overhead trolley system to carry the "return" current to the power house, saving the water and gas mains. The matter was referred to the committee on public service and law.

An ordinance was introduced by Councilman Keller for the construction of a sewer in Seventh street with a short branch on Columbia street. The ordinance was passed under suspension of rules.

An ordinance by Mr. Payne for a sewer on Boylston avenue, was introduced and passed under suspended rules.

An ordinance by Mr. Muenz for the improvement of Maholm street from Union street to Decrow avenue by constructing a drainage sewer, was introduced and passed under suspended rules.

Mr. Prior's ordinance for the construction of a sewer on South Third, South Second and Baker streets was introduced and passed under suspended rules.

An ordinance by Mr. Dwyer to transfer \$350 from one fund to another in the safety department, was passed under suspended rules.

A resolution by Mr. Payne accepting the plat of the Metz Heirs Addition, was adopted under suspended rules.

A resolution by Mr. Payne to construct sidewalks on Mill street from Main to Baltimore street was adopted under suspended rules.

A resolution by Mr. Baker authorizing the construction of sidewalks at Sixth and Morris streets, over the canal, was adopted under suspended rules.

A resolution authorizing the service director to demolish the city building as ordered by the state fire marshal, was read the second time. A motion to lay it on the table was lost.

City Solicitor Jones took opportunity to advise council the danger of delaying in the passage of the resolution. Councilman Payne thought the measure should specify what disposition should be made of the debris. A motion to suspend the rules and read the resolution the third time was lost.

TWO MORE JURORS FOR BECKER TRIAL

New York, Oct. 2.—An anonymous letter threatening death was delivered to John F. McIntyre, chief counsel for Police Lieutenant Charles Becker while the work of selecting a jury for the slayer of Herman Rosenthal was going on this morning. The writer charged the attorney with "putting up the murder of Jack Zelig" and added that if Becker is acquitted "you shall die." Two additional jurors were selected during this forenoon.

EX-SENATOR PEPPER OF KANSAS DIES AT A RIPE AGE

Topeka, Kas., Oct. 2.—William A. Pepper, 81 years old, farmer, teacher, lawyer, statesman and soldier, died of apoplexy at Grenola, Kansas, yesterday. He had suffered from the shock following the amputation of a leg.

Senator Pepper, noted, among other things, for his luxuriant growth of whiskers, which reached below his waistband, was elected to the United States senate by the first Populist legislature of Kansas. He was born in Pennsylvania, and at the age of 15 was teaching school, working on his father's farm in the summers.

In 1853 he moved to Indiana, where he was engaged in farming. Moving to Illinois he enlisted as a private in the Eighty-third Illinois infantry in 1862, and in June, 1865, mustered out under rank of Lieutenant.

Senator Pepper began the practice of law at Clarksville, Tenn., in August, 1865. He later moved to Kansas and established the Fredonia Journal and the Coffeyville Journal. He was a member of the Kansas Senate in 1874 and Republican Presidential elector in 1880. From 1891 to 1897 he was a United States senator, having been elected by the People's party.

Manager John J. McGraw, of the Giants, said the Giants were prepared to make a hard fight. Manager Stahl of the Boston team, said: "There won't be one game that our opponents won't have to knock us down to get." Thousands of dollars have been wagered on the outcome of the series.

Boston was the favorite at 10 to 8 and 10 to 9. Betting this morning found plenty of Boston money. Bets at 6 to 5 that Boston would win if Wood pitched today were popular.

Polo Grounds, New York, Oct. 2.—Some 40,000 persons surged into the vast reaches of the Brush stadium today to witness the first struggle of the New York Giants, pennant winners of the National League, and the Boston Red Sox, champions of the American League, for the premier title in baseball, the world's champions. Mayor Gaynor of New York and Mayor Fitzgerald of Boston, laid aside the cares of official duty and joined in the cheering for their respective teams.

The majors sat together in an upper tier box. A day of sunshine and Indian summer warmth was the pleasant portion of the players and spectators. Excited and anxious fans gathered before nightfall to secure their first choice of seats on the lower stand and back field bleachers. But there was no need for the all-night line for when the gates were opened and the first rush of enthusiastic fans had been taken care of, there were still 25,000 seats to be had. All morning there was a constant pouring of spectators through the turnstiles. The lower grand stand was filled at noon, the upper stands being reserved were the last to fill and the teams had about finished practice when the last spectator passed through the turnstiles.

HISTORY OF WORLD'S SERIES

In 1890 the Brotherhood of Baseball Players, a co-operative league, appeared on the baseball map, and the Boston team won the pennant and was beyond doubt the strongest club of that year. The world's series

was, however, between the Louisville pennant winners of the National League, and the Brooklyn, champions of the American Association. The Boston brethren were not given a chance to try for the world's championship, and with good reason, for they could have wiped up the earth with either the Colonels or Brooklyn. The latter team took the first two games of the series with Louisville, 3-0 and 5-3, and the third contest was a 7-7 tie. Louisville beat Brooklyn in the fourth, 5-4, and Brooklyn took the fifth, 7-2. The next two games were captured by Louisville, 9-8 and 6-2. This left the contenders with three games each and one tie, and frigid weather prevented the playing off of the tie. In 1891 no series was played. In 1892 the Boston and Cleveland teams, both of the National League, contested for premier honors of the baseball world. Boston won five games and the sixth was an 11-inning tie. There was another off year in 1893. The following year inaugurated the first series for the Temple Cup, emblematic of the world's championship, with the New York Giants and the Baltimore Orioles as the contenders. It was a (Continued on page 2, col. 3.)

REPUBLICAN ROW IN KNOX COUNTY

Mt. Vernon, Oct. 2.—Not caring to be too far behind other counties in the state, the Knox county Republicans staged a lively row at a meeting of the central committee Saturday. This committee met for the avowed purpose of fixing the campaign assessments on the various candidates. Members of the executive committee disputed the right of the central committee to take this action and the fight was on. Hot words were exchanged and charges and counter charges made. It resulted in the resignation of Chairman Harvey G. Hammond and Secretary John F. Devore as officers and members of the committee. Taft Republicans, who could be depended upon to support the hopeless candidate for president with loyalty were elected to succeed them. The county election board at a meeting held the same day laid on the table the petition from the Bull Mooseers endorsing the regular Republican candidates and asking that their names appear on their ballot pending a decision of the state supreme court.

AVIATOR LEAPS FROM AIRSHIP; CANNOT LIVE

Birmingham, Ala., Oct. 2.—Joseph Stevenson, aviator, late yesterday afternoon leaped from his bi-plane, which had become unmanageable at an elevation of 50 feet, and falling, suffered injuries which physicians say will prove fatal. He had been aloft for only about two minutes and was seen to turn with the apparent indication of landing. Then he jumped.

Stevenson's skull was fractured and a rib punctured his lungs. Among the witnesses were Mrs. Stevenson and several thousand school children, for whom the aviation program at the Alabama state fair had been specially arranged.

Stevenson, who had been sworn in Saturday as a mail carrier, and who was to have conducted a regular mail service between the city and the fair grounds, expressed a fear "that something was going to happen before he ascended."

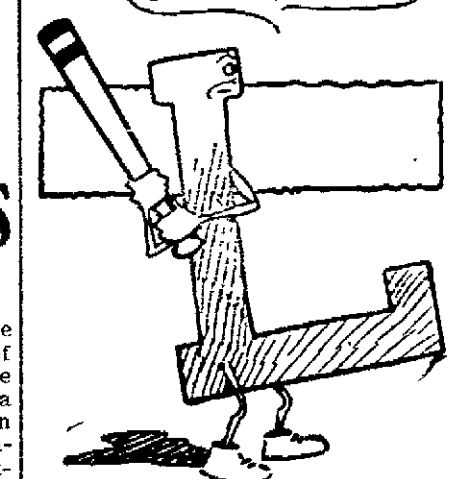

Cross wind currents seemed to be his chief dread.

WILSON'S COLORADO SPEECHES

Directed Against Big Interests Backing Progressive Party

CAPITAL SEEKS CONTROL

**Promises New Tariff Legislation
If Democratic Party is Successful at Election.**

Denver, Colo., Oct. 2.—"Is there a new deal?" asked Governor Wilson, in his speeches throughout Colorado yesterday when he charged that the United States Steel Corporation and other combinations of capital were seeking to control the government by proposing that monopolies and trusts should be regulated by an industrial commission.

The old method was campaign contributions, the new method in legalized monopoly," said the governor as he directed his attack on the interests, which he said were backing the program of the Progressive party. The governor drew attention to the senate investigation by the Clapp committee and said the debate there was centered on which of the "certain privileged groups" had been more intimate with the candidates of the Republican and Progressive parties.

"I was saying to some of my newspaper companions a little while ago that if I were a cartoonist I would draw a picture of the biggest monopolies of the United States, drawn up in line, and in front Mr. Roosevelt trying to lead them in a hallelujah chorus."

Referring at Colorado Springs to the pre-convention campaigns of President Taft and former President Roosevelt, the governor said:

"All the while I was trying to formulate just what it was they were debating with one another, and as nearly as I could make it out was this: Which of the two had been the most implicated in the things which had discredited the Republican party, and then I asked myself what was it that had discredited or as any rate threatened to discredit the great party which had so long governed the country, and it was perfectly obvious that the gentlemen were debating which of them had been the more subject to those influences which we are now aware have created most of the complications which we wish to correct in our economic development."

"The men who have promoted the great combinations of capital and the wide-spread understandings amongst those who are conducting the industry of this country, who have dominated, not only our business, but our politics, are the men whose connections with the two candidates were being most debated."

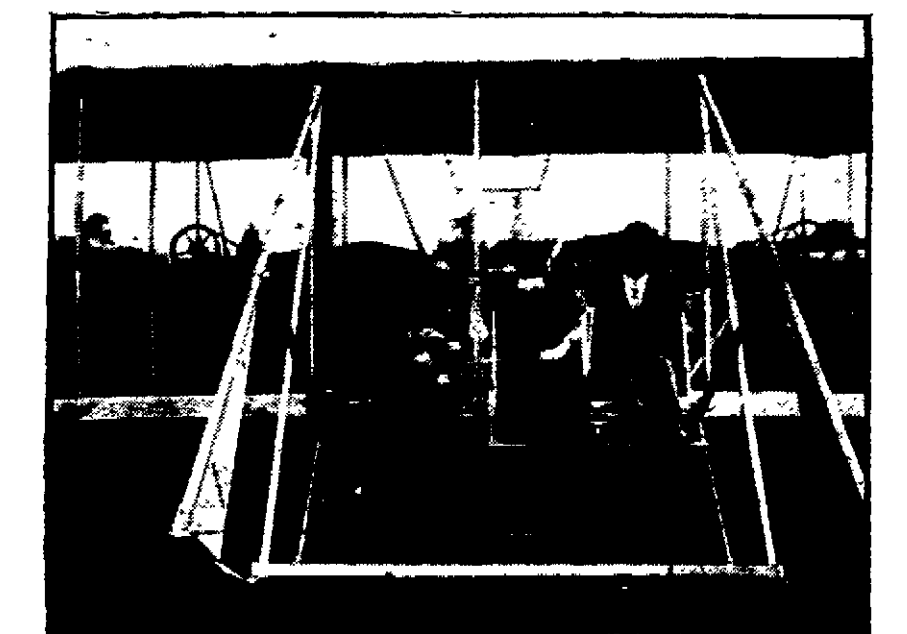

"For these gentlemen are not disconnected with one another. They are connected with various branches of the privileged classes in this country and they are so interlarded in the directorates of banks and railroads and mining companies and manufacturing enterprises and commercial houses that they constitute a single controlling body. There are some men among them who are members of at least 60 boards of directors of the most important undertakings in the country and the gentlemen, about 30, I believe, who constitute the directors of the United States Steel corporation, are so connected by being presidents or vice-presidents or directors in the railroad corporations of this country, that they control 55 per cent of the railroads of the United States."

"These are the gentlemen who are now backing the program of the leader of the third party. Mark you, I am not impeaching their motives. I do not consider it my privilege to look into men's hearts and ask why they are doing these things. These gentlemen may intend to do the United States no disservice, but my point is that they are not intending to change in the least essential particular the system of control which has already been established, but are seeking to establish it by new methods. The old method was campaign contributions, the new method is legalized monopoly and the superintendence by the government of the very processes by which they have (Continued on Page 2.—Column 2)

CITY PATROLMAN WAS THREATENED WITH SHOTGUN

Denying the right of the officer to arrest him with a warrant in which his name was written incorrectly, and backing this alleged right with a villainous looking repeating shotgun, a man named Seigel, living in Eddy street, successfully resisted arrest—for a few minutes Monday morning.

Seigel was charged in the warrant with having received a dog, valued at \$5, which had been stolen from Wm. H. Key. Patrolman Donley was sent to the Eddy street address to serve the document and found Seigel armed with a shotgun ready to defend his rights with the use of the weapon, if necessary.

He claimed that he paid \$5 for the dog and did not propose to give up the animal, unless he was reimbursed.

Donley reported the matter to Chief of Police Buzzard and the chief, with Captain Swanik, Patrolmen Donley and Burke and Wagonman McClure, went to the Seigel residence and he submitted to superior forces and was lodged in jail. He will now face the additional charge of resisting and threatening an officer.

He was fined \$25 and costs and Marie was given a like sentence, while the other pair was given fines of \$5 and costs. Smith and the woman were ordered committed.

Jack Artor, a saloonist in Wilson street, was ordered before Mayor Swartz Monday morning on a charge of permitting tippling and loafing at his place on Sunday. He stated that the loafing was done in the restaurant adjoining the saloon and that he had nothing to do with that part of the business. His case was continued until Thursday afternoon at 2 o'clock. Chief of Police Blazars filed the affidavit against him. Ed. Crist of North Newark is looking for the owner of a bicycle which was left against his garden fence on Saturday evening by a lad who had evidently stolen it. Crist was in his garden when the lad came along, riding the bike. Crist started out of the alley on an errand and the boy evidently thought he was after the wheel, for he jumped off, tossed it against the fence and took to his heels. He has not been seen since.

Henry Green, James Berg and Matthew Arnold were fined \$5 and costs each before Mayor Swartz Saturday on a charge of shooting craps at U. G. Craig's place last Thursday night.

Oliver Lucas, charged with carrying concealed weapons, was given a hearing before Mayor Swartz Saturday afternoon and was bound over to the grand jury under \$100 bond.

NO MORE CONSTIPATION

IT'S ME FOR OLIVE TABLETS!

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and Calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing laxative.

No gripping is the "keynote" of these little sugar-coated tablets.

They cause the bowels and liver to act normal. They never force them to unnatural action.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—a sick headache—torpid liver and constipated, you'll find quick, sure, and only pleasant results from one or two little Olive Tablets at bedtime. They're perfectly harmless.

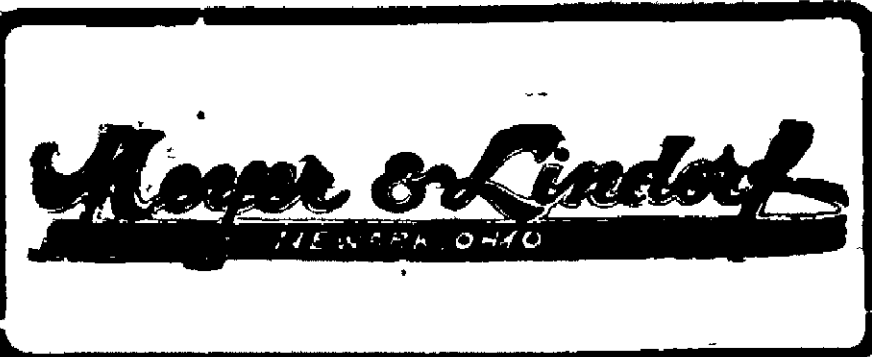

Thousands take one every night just to keep right. Try them.

"Every little Olive Tablet has a movement all its own." 10c and 25c per box.

COUNCIL FAILS TO PASS MEASURE FOR DEMOLITION OF OLD CITY BUILDING

**Goes Over to Next Meeting When It
Will Again Come Up For a Third or
Final Reading in Council
Chamber**

CITY SOLICITOR SCORES MEMBERS FOR THEIR ACTION

**Claims City Will Be Subject to Heavy Penalty if State
Fire Marshal's Orders are Not Heeded—The First
Meeting Held in New Quarters of Council in
the Trust Building.**

Fear for the success of the sub-way proposition was blamed for the delay in passing legislation at the first October meeting of the city council for the destruction of the old city hall building in compliance with an order from the state fire marshal's office. The resolution authorizing the service director to raze the building was up for its second reading. A motion to lay the bill on the table was lost by a tie vote, Messrs. Keller, Payne, Prior and Stasel favoring the motion. Messrs. Baker, Muenz, Beckman and Dwyer voted against tabling the measure. Mr. Muenz offered a motion to suspend the rules, place the bill on its third reading and final passage, but this motion to suspend rules was lost. Messrs. Dwyer, Keller, Payne, Prior and Stasel opposing this move. The measure will come up for its third reading at the next meeting of council when it will be defeated on final passage unless there is a change of heart on the part of some of the councilmen.

City Solicitor Jones took this opportunity to score the councilmen on their failure to adopt the measure. "I want to make a statement here and now," said Mr. Jones, "so none of you can say at any time that the council was not sufficiently advised in this matter beforehand."

"This building has been condemned by the state fire marshal and his action is supported in law. A penalty is provided for each day after the time limit expires that the building remains standing. In addition to this, the fire marshal is empowered to destroy the building with his own men, which will be more expensive to the city than if the work is done by our own officials."

"The building has been vacated and there is no valid excuse why it should remain standing." Several councilmen talked on the matter, some holding that the measure was not specific enough and that some provision should have been made for the service director to receive bids for the building or for the destruction of it. One declared that the building was as good as it ever was and that "twenty traction engines couldn't pull it down."

Another declared that the building was worthless and that no one would offer a nickel for the structure, as it stands. It is understood that the service director can use most of the material in the building for smaller

structures used by the city in various ways.

Monday night's meeting was the first held in the new council chamber on the second floor of the Trust building. All members of council were present with the exception of Mr. Dayton, of the Sixth Ward. He was excused. Clerk Franklin was also absent. The council elected Mr. Baker, clerk pro tem, and Mr. Baker deputized Service Director McCarthy to act as clerk. Mr. McCarthy served several years as council clerk so the duties were not strange to him.

After the reading of the minutes, by acting Clerk James McCarthy, the council settled down to business. Mayor Swartz sent to council his appointment of James R. Fitzgibbon and E. C. Wright as members of the board of trustees of the public library.

Mayor Swartz submitted his monthly report showing: Licenses collected, \$252.50; fines (city cases) \$35; costs, (city cases) \$77.40; fines collected, (state cases) \$115; mayor's fees collected, \$68; officers' fees, \$34.

City Solicitor Jones reported that he had caused steps to be taken against Newark banks to recover interest on waterworks funds resulting from the sale of bonds several years ago. He has also taken steps to condemn property owned by Bert M. Hay in North Third street for the opening of Norton avenue.

The service director reported that he had caused plans to be proposed for a drainage sewer in Union street. The estimated cost is \$25,543.

Safety Director Collier called to the attention of the council the advisability of disposing of the old No. 2 fire station in East Main street. It is now used to store the old steam fire engine and a couple of boats used by the police department on occasion of floods, etc.

Council Clerk Franklin certified to council that notices to build sidewalks had been served on property owners on a dozen or more streets. The city is now free to go ahead with the construction of sidewalks on these streets. He also certified that notices for sewers and street paving on many streets had been served and that 15 days had elapsed since the service of the notices.

The trustees of the Newark Library submitted its annual report. The report showed that the library now has 6,423 volumes on the shelves, an increase of more than 1,000. There were circulated 46,763 volumes during the

last year, an increase of 10,172 over the previous twelve months. The librarian also called attention to the improvement in the character of the books issued. The treasurer reported funds received and paid out amounting to \$446. The support received from the city is used to pay the library staff. The president of the board asked an appropriation amounting to at least \$125 per month for maintenance of the library.

A petition from a resident of Oakwood avenue offering a lot to the city for the sum of \$150. The matter was referred to the public service committee.

A communication from the Natural gas company calling council's attention to the damage done to the gas and water mains by electrolysis. The danger of explosion from escaping gas entering the cellars of homes was explained. It was suggested that the street car company install the double overhead trolley system to carry the "return" current to the power house, saving the water and gas mains. The matter was referred to the committee on public service and law.

An ordinance was introduced by Councilman Keller for the construction of a sewer in Seventh street with a short branch on Columbia street. The ordinance was passed under suspension of rules.

An ordinance by Mr. Payne for a sewer on Boylston avenue, was introduced and passed under suspended rules.

An ordinance by Mr. Muenz for the improvement of Malcolm street from Union street to Decrow avenue by constructing a damage sewer, was introduced and was passed under suspended rules.

Mr. Prior's ordinance for the construction of a sewer on South Third, South Second and Baker streets was introduced and passed under suspended rules.

An ordinance by Mr. Dwyer to transfer \$350 from one fund to another in the safety department, was passed under suspended rules.

A resolution by Mr. Payne accepting the plat of the Metz Heirs Addition, was adopted under suspended rules.

A resolution by Mr. Payne to construct sidewalks on Mill street from Main to Baltimore street was adopted under suspended rules.

A resolution by Mr. Baker authorizing the construction of sidewalks at Sixth and Morris streets, over the canal, was adopted under suspended rules.

A resolution authorizing the service director to demolish the city building as ordered by the state fire marshal, was read the second time. A motion to lay it on the table was lost.

City Solicitor Jones took opportunity to advise council the danger of delaying in the passage of the resolution. Councilman Payne thought the measure should specify what disposition should be made of the debris. A motion to suspend the rules and read the resolution the third time was lost.

TWO MORE JURORS FOR BECKER TRIAL

New York, Oct. 8.—An anonymous letter threatening death was delivered to John F. McIntyre, chief counsel for Police Lieutenant Charles Becker while the work of selecting a jury for the slayer of Herman Rosenthal was going on this morning. The writer charged the attorney with "putting up the murder of Jack Zelig" and added that if Becker is acquitted "you shall die." Two additional jurors were selected during this forenoon.

EX-SENATOR PEPPER OF KANSAS DIES AT A RIPE AGE

Topeka, Kas., Oct. 8.—William A. Pepper, 81 years old, farmer, teacher, lawyer, statesman and soldier, died of apoplexy at Grenola, Kansas, yesterday. He had suffered from the shock following the amputation of a leg.

Senator Pepper, noted, among other things, for his luxuriant growth of whiskers, which reached below his waistband, was elected to the United States senate by the first Populist legislature of Kansas. He was born in Pennsylvania, and at the age of 15 was teaching school, working on his father's farm in the summers.

In 1853 he moved to Indiana, where he was engaged in farming. Moving to Illinois he enlisted as a private in the Eighty-third Illinois infantry in 1862, and in June, 1865, mustered out under rank of Lieutenant.

Senator Pepper began the practice of law at Clarksville, Tenn., in August, 1865. He later moved to Kansas and established the Fredonia Journal and the Coffeyville Journal. He was a member of the Kansas Senate in 1874 and Republican Presidential elector in 1880. From 1891 to 1897 he was a United States senator, having been elected by the People's party.

Boston was the favorite at 10 to 8 and 10 to 9. Betting this morning found plenty of Boston money. Bets at 6 to 5 that Boston would win if Wood pitched today were popular.

Polo Grounds, New York, Oct. 8.—Some 40,000 persons surged into the vast reaches of the Brush stadium today to witness the first struggle of the New York Giants, pennant winners of the National League, and the Boston Red Sox, champions of the American League, for the premier title in baseball, the world's championship. Mayor Gaynor of New York and Mayor Fitzgerald of Boston, laid aside the cares of official duty and joined in the cheering for their respective teams.

The mayors sat together in an upper tier box. A day of sunshine and Indian summer warmth was the pleasant portion of the players and spectators. Excited and anxious fans gathered before nightfall to secure their first choice of seats on the lower stand and back field bleachers. But there was no need for the all-night line, for when the gates were opened and the first rush of enthusiastic fans had been taken care of, there were still 25,000 seats to be had. All morning there was a constant pouring of spectators through the turnstiles. The lower grand stand was filled at noon, the upper stands being reserved were the last to fill and the teams had about finished practice when the last spectator passed through the turnstiles.

HISTORY OF WORLD'S SERIES

In 1890 the Brotherhood of Baseball Players, a co-operative league, appeared on the baseball map, and the Boston team won the pennant and was beyond doubt the strongest club of that year. The world's ser-

ies, however, was between the Louisville pennant winners of the National League, and the Brooklyn, champions of the American Association. The Boston brethren were not given a chance to try for the world's championship, and with good reason, for they could have wiped up the earth with either the Colonels or Brooklyn. The latter team took the first two games of the series with Louisville, 3-0 and 5-3, and the third contest was a 7-7 tie. Louisville beat Brooklyn in the fourth, 5-4, and Brooklyn took the fifth, 7-2. The next two games were captured by Louisville, 9-8 and 6-2. This left the contenders with three games each and one tie, and frigid weather prevented the playing off of the tie. In 1891 no series was played. In 1892 the Boston and Cleveland teams, both of the National League, contested for premier honors of the baseball world. Boston won five games and the sixth was an 11-inning tie. There was another off year in 1893. The following year inaugurated the first series for the Temple Cup, emblematic of the world's championship, with the New York Giants and the Baltimore Orioles as the contenders. It was a (Continued on page 2, col. 3.)

REPUBLICAN ROW IN KNOX COUNTY

Mt. Vernon, Oct. 8.—Not caring to be too far behind other counties in the state, the Knox county Republicans staged a lively row at a meeting of the central committee Saturday. This committee met for the avowed purpose of fixing the campaign assessments on the various candidates. Members of the executive committee disputed the right of the central committee to take this action and the fight was on. Hot words were exchanged and charges and counter charges made. It resulted in the resignation of Chairman Harvey G. Hammond and Secretary John F. Devore as officers and members of the committee. Taft Republicans, who could be depended upon to support the hopeless candidate for president with loyalty were elected to succeed them. The county election board at a meeting held the same day laid on the table the petition from the Bull Moosers indorsing the regular Republican candidates and asking that their names appear on their ballot pending a decision of the state supreme court.

AVIATOR LEAPS FROM AIRSHIP; CANNOT LIVE

Birmingham, Ala., Oct. 8.—Joseph Stevenson, aviator, late yesterday afternoon leaped from his bi-plane, which had become unmanageable at an elevation of 50 feet, and falling, suffered injuries which physicians say will prove fatal. He had been aloft for only about two minutes and was seen to turn with the apparent indication of landing. Then he jumped.

Stevenson's skull was fractured and a rib punctured his lungs. Among the witnesses were Mrs. Stevenson and several thousand school children, for whom the aviation program at the Alabama state fair had been specially arranged.

Stevenson, who had been sworn in Saturday as a mail carrier, and who was to have conducted a regular mail service between the city and the fair grounds, expressed a fear "that something was going to happen before he ascended."

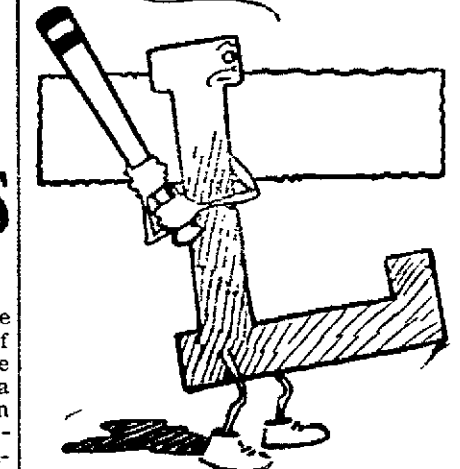

Cross wind currents seemed to be his chief dread.

WILSON'S COLORADO SPEECHES

Directed Against Big Interests Backing Progressive Party

CAPITAL SEEKS CONTROL

**Promises New Tariff Legislation
If Democratic Party is Successful at Election.**

Denver, Colo., Oct. 8.—"Is there a new deal?" asked Governor Wilson, in his speeches throughout Colorado yesterday when he charged that the United States Steel Corporation and other combinations of capital were seeking to control the government by proposing that monopolies and trusts should be regulated by an industrial commission.

"The old method was campaign contributions, the new method is legalized monopoly," said the governor as he directed his attack on the interests, which he said were backing the program of the Progressive party. The governor drew attention to the senate investigation by the Clapp committee and said the debate there was centered on which of the "certain privileged groups" had been more intimate with the candidates of the Republican and Progressive parties.

"I was saying to some of my newspaper companions a little while ago that if I were a cartoonist I would draw a picture of the biggest monopolies of the United States, drawn up in line, and in front Mr. Roosevelt trying to lead them in a hallelujah chorus."

Referring at Colorado Springs to the pre-convention campaigns of President Taft and former President Roosevelt, the governor said:

"All the while I was trying to formulate just what it was they were debating with one another, and as nearly as I could make it out was this: Which of the two had been the most implicated in the things which had discredited the Republican party, and then I asked myself what was it that had discredited or at any rate threatened to discredit the great party which had so long governed the country, and it was perfectly obvious that the gentlemen were debating which of them had been the more subject to those influences which we are now aware have created most of the complications which we wish to correct in our economic development."

"The men who have promoted the great combinations of capital and the wide-spread understandings amongst those who are conducting the directors of this country, who have dominated, not only our business, but our politics, are the men whose connections with the two candidates were being most debated."

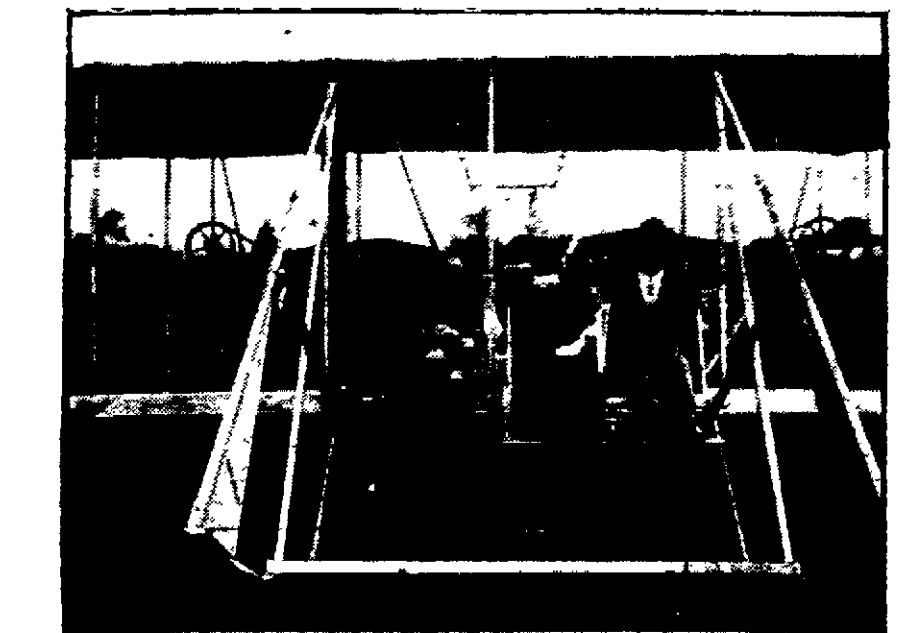

"For these gentlemen are not disconnected with one another. They are connected with various branches of the privileged classes in this country and they are so interlarded in the directorates of banks and railroads and mining companies and manufacturing enterprises and commercial houses that they constitute a single controlling body. There are some men among them who are members of at least 60 boards of directors of the most important undertakings in the country and the gentlemen, about 50, I believe, who constitute the directors of the United States Steel corporation, and so connected by being presidents or vice presidents or directors in the railroad corporations of this country, that they control 55 per cent of the railroads of the United States."

"These are the gentlemen who are now backing the program of the leader of the third party. Mark you, I am not impeaching their motives. I do not consider it my privilege to look in-o men's hearts and ask why they are doing these things. These gentlemen may intend to do the United States no disservice, but my point is that they are not intending to change in the least essential particular the system of control which has already been established, but are seeking to establish it by new methods. The old method was campaign contributions, the new method is legalized monopoly and the superintendence by the government of the very processes by which they have (Continued on Page 2.—Column 2)

established their predominance over us."

Wilson gave out for publication the following letter, which he said had been forwarded to him from Democratic national headquarters as having been circulated by Charles D. Hilles, Republican national chairman, among employers of labor throughout the country:

The Old Game of Intimidating the Workman.

"If the November election results in the choice of a Democratic Congress and Democratic president, new tariff bills will be enacted at once. In other words, destructive Democratic tariff measures, such as President Taft vetoed at the last session will become laws.

"Only one thing can prevent this, and that is a protest vote on the part of the American workingmen. They must choose between a high standard of living and that of the underpaid European workingmen. Do your employees understand that this defines the exact difference between the Republican and Democratic parties, not only as far as your produce is concerned, but as pertaining to all other products of American labor.

"If you will kindly send us a list of your employees, who are voters, with postoffice addresses, each one will be asked personally to vote for Taft and Sherman and the Republican candidate for Congress and told the reason why."

ROOSEVELT BOOSTER

Editor Advocate:—There are other citizens that read the Advocate, besides those who will vote for Wilson, and I do not see why the Advocate should be classed with the New York World in printing cartoons, as the one in your issue of October 3rd, front page. Give the people the news of all issues and parties. Print the following for the Progressives who read your paper.

Roosevelt is still holding the army at Armageddon awaiting re-inforcements coming up in the rear by thousands under Oscar S. Straus of New York and Governor Hiram Johnson of California.

Roosevelt came out of the ordeal at Washington a bigger and stronger man than before the latest canonade was opened on him. The fights he gets into make him greater and more popular. This time they gave the Progressive leader and the progressive movement its biggest forward push.

The new Progressive party has much the best platform of the three. It is constructive. It is conservative where conservatism is needed. It is a platform of today, mirroring the ideas and sentiments of the people of today.

But better than its pledges is the fact that back of it are earnest, sincere men who have broken away from the old parties, and cast their lot with the new, because of conviction and the earnest desire for a better representative form of government that will meet the requirements of a nation of one hundred million people with its vast industries and vast wealth.

It looks more and more like it every day, that Roosevelt will sweep the country in triumph as by a tidal wave. Very truly,

JOHN W. KNUEPFER,
Jersey City, Oct. 5, 1912.

Today is the eighteenth anniversary of the final game of that famous series. J. M. Meekin and Amos Rusie were the New York twirlers, each pitching two games and George Davis was then the leader of the Giants. In 1895 the Orioles played Cleveland for the cup, both clubs being then members of the National League, which games were played, Cleveland taking four of them. Old Cy Young, who recently retired from the game, won three of the contests for the Ohio city. Espen pitched Baltimore's lone winning game.

MEN GREET DR. M. H. LYON AT DINNER

Business men of Newark showed their interest in the personality of Dr. Lyon Tuesday noon by turning out to the number of nearly a hundred at the first business men's lunch served in the basement of the First Presbyterian church. They were welcomed by a committee consisting of Rev. Mr. Hazen, pastor of the church, Secretary Johnson of the Y. M. C. A., and Attorney Mitchell, president of the Christian Men's Union of Newark. The tables were arranged in a large square, the inside of which was adorned by several large bowls of flowers, lending a pleasing touch of color to the rathering. An orchestra of young people was engaged for the dinner and a quartet of young men of the city, hastily secured, rendered in a very effective manner. "The Heavenly Streets."

The luncheon served by the ladies of the Second Presbyterian church, who were in charge of arrangements for the opening day, was calculated to appeal to and appease the appetites of a busy man, and proved a very pleasing introduction to Dr. Lyon's remarks. Dr. Lyon took as his theme, "The Personal Element in Religion," using as his text John 1:12, "And he brought him to Jesus." Dr. Lyon showed that in this simple verse are found three types of individuals, and three types of the gospel of Jesus Christ—the gospel of a person, the gospel for a person, the gospel by a person, and the gospel to a person. Christianity is not Christ; it is a question of what you and I think about the gospel of Jesus. It is the gospel of a personality.

"It was the personal element in the

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. Fortyyears I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

GOING ONE BETTER.

"Bang!" went the rifles at the maneuvers. "Oo-oo!" screamed the pretty girl—a nice, decorous, surprised little scream. She stepped backward into the surprised arms of a young man.

"Oh," said she, blushing. "I was frightened by the rifles. I beg your pardon."

"Not at all," said the young man. "Let's go over and watch the artillery."—Cincinnati Times-Star.

life of Jesus (that transformed the lives of men," continued Dr. Lyon. "Many serious today need a little of that personality. We have too many sermons that are like hay, they can't be carried home because they are too bulky.

"When a man comes into personal relationship with Christ, Christ holds his life up before himself. He causes him to analyze his own life. If you will do that faithfully you will fix your own fate. That's a good thing; to find out where Christ dwells and then go to live with Him. A lot of people just want to make a little social call on Jesus.

"There is a danger in these days of our becoming too extensive rather than intensive. Let's not dispose of the days of the few; let's not get away from the small things.

"The gospel of Christ is surely a gospel by a person. What was the result of the two disciples' meeting Jesus? Love for humanity and a passion for souls. If you have a narrow view of Christianity it isn't Christianity at all. It is the gospel of sin and the gospel of Satan. The gospel of Christ is the gospel of 'go out and save another man.'

Dr. Lyon aroused amusement by relating his career as a traveling salesman. "They had a lively time getting rid of me when I wanted to sell anything. They couldn't throw me in the waste-basket as they would a catalogue," he explained, and those who have felt the force of his personality were convinced that he secured a fair share of the orders he tried for.

"God will never save the world by this old book alone," he added, holding up the Bible. "There are lots of preachers who are good preachers but they aren't worth a cent saving souls. We need to exert this saving power of the gospel and go out and bring others to Christ." The service was concluded by the singing of "Rescue the Perishing," after which Dr. Lyon announced that at tomorrow's luncheon he would discuss "The Walks" as outlined in the epistle to the Ephesians.

DEPUTY SHERIFFS EVICT FAMILIES OF THE MINERS

Charleston, W. Va., Oct. 8.—Distressing scenes were witnessed along the Cabin Creek today when deputy sheriffs evicted the families of many miners from the humble homes they have occupied in some instances since the mines were opened. The striking miners were notified two months ago that they must return to work or move. Company E, First West Virginia Infantry, was placed under arrest at its camp on Cabin Creek during last night and taken to military headquarters at Paint Creek Junction today, in order that Adjutant General Elliott might investigate the charge that the men had been drinking.

OBITUARY

MRS. LENA DICKERSON.
Mrs. Lena Dickerson, aged 55 years, died at her home, 624 North Seventh St., Zanesville, at 8 o'clock Sunday morning, after a several months' illness from tuberculosis. The deceased was highly respected and was a member of the Methodist church. Her first husband, Mr. Freeman was killed at the local railroad yards, 12 years ago.

Surviving are eight children, Mrs. Charles Arter, Newark; Lewis Freeman, San Toy; Mrs. Lillie Dayton, Miss Flora Freeman, Harry Freeman, Floyd Freeman, and Forrest Freeman all of this city.

The funeral was held Tuesday at the home of her daughter, Mrs. Lillie Dayton in Zanesville. Interment at Washington township Baptist cemetery.

GLADYS BAUGHER.
Gladys Baugher died at the parental home near Hebron, O., Oct. 2, 1912, aged 18 years, 9 months and 26 days.

Gladys was an amiable and promising young woman and her early decease has caused a universal sorrow in the community where she lived. Though never strong, she was bright and energetic and graduated with honors at the Hebron high school in 1910.

She united with the Licking Baptist church in 1907 and her life was a beautiful example of the power of saving grace. Although a sufferer for months from the dread disease of tuberculosis, her Christian patience and resignation were truly of the most beautiful type. Her funeral was conducted by her first pastor, Rev. A. K. McCall, Worthington, O., in the presence of a very large gathering of relatives and friends, and her remains were interred in the beautiful cemetery at Kinkersville. The Eastern Star, of Hebron, was present in a body and shared in the service with their beautiful ritual.

There remain of her family to mourn her departure, her father and two brothers, her mother having gone on before five years ago.

RHODA ELIZABETH TYRRELL.
Thomas M. and Lulu Perks Tyrrell, parents of Rhoda Elizabeth Tyrrell, wish to extend to their many relatives, friends and neighbors, their heartfelt thanks for the sympathy and kindness shown them during the death of their darling baby, and for the beautiful floral tributes. They also thank the U. B. choir, and the Rev. Mr. Tyler for his consoling words.

Lovely babe, how brief thy stay,
Short and hasty was thy day—
Ending soon the journey here,
Pain and grief no more to bear.

Hard it was from thee to part,
For it rends the aching heart,
But an heir of Glory's gone—
Let the will of God be done.

Pillowed on the Savior's breast,
Sweetly sleep and safely rest.
Soon the morning will restore
The buried babe we now deplore.
Gone, but not forgotten.
—Parents and Sisters.

CARD OF THANKS.
We desire to thank our friends and neighbors for the assistance and

sympathy shown us during the sickness and death of our darling baby. Especially those who gave the beautiful flowers and the ladies who sang so nicely. Also the Rev. Mr. Schmidt for his consoling words. Mr. and Mrs. Stanley Haynes.

CARD OF THANKS.
Mr. and Mrs. Morrison Clark wish to thank neighbors and friends for their kindness during the illness and death of their sister, Miss Maggie Clark. They wish to thank Rev. Long for his kind words, the choir

and the friends for their beautiful floral offerings.

It is an established fact that more progressive legislation was enacted during the 1911 session of the Ohio General Assembly than was written into the statute books in the fifty years that preceded. Congressman James M. Cox of Dayton, Democratic gubernatorial candidate, has succinctly stated why so many important laws were enacted. "The plain truth," said he, "is that practically every important piece of legislation passed within the past two years was for the vigorous purpose of tearing out the veins and arteries of a political system built up by Republican leaders with such finesse that it reached every community and made the conduct and existence of our institutions a mere travesty on intelligence and morality."

The difference between Congressman James M. Cox of Dayton, Democratic gubernatorial nominee, and General Brown is that when Mr. Cox is elected Governor, he will see that not one line of that document is erased, while General Brown will do all in his power to annul the verdict of the people as expressed at the polls in the special constitutional amendments election.

DISTRICT ATTORNEY DISCUSSES NUMBER OF EXPLOSIONS

Indianapolis, Oct. 8.—Explosions at South Chicago and Springfield, Ill., were described by District Attorney Charles W. Miller at the trial of the accused "dynamite conspirators" today.

Mr. Miller said when James B. McNamara and Orrie E. McManis arrived in Chicago in February, 1911, they found the dynamite which they had carried on a passenger train from Indianapolis had frozen.

McManis at his home in Chicago, put the explosive on a radiator to thaw and when he returned from looking over the frozen steel plant at South Chicago he saw his little girl on the floor playing with the dynamite, said Mr. Miller.

When the Chicago plant was blown up on February 5, 1911, Mr. Miller said McNamara wanted to kill a night watchman because he was in the way but McNamara objected.

Letters were read by the district attorney purporting to show that Murray L. Pennell, of Springfield, Ill., head of a local iron workers' union had written to the union's headquarters expressing impatience because work at Springfield constructed by employees of non-union labor had not been stopped up.

MONEY BACK IF IT DOESN'T
Don't say "I've read all that before"—just go to your dealer right away, lay down 50c and say "I want a bottle of that PARISIAN SAGE that so many sensible people are using."

Then take it home and use it as directed and then if you are not satisfied that it is just as advertised take back the empty bottle and your money will be refunded.

"Pretty risky offer" you'll say; not at all, dealers know just what PARISIAN SAGE will do and have the promise of the American makers, the Groux Mfg. Co., of Buffalo, N. Y., that they will back him up in his strong guarantee. Pretty fair and square offer isn't it?

Mrs. J. G. Franklin, Fulton, Mo., writes, "PARISIAN SAGE eradicates dandruff, cleans the scalp, and makes the hair fluffy and beautiful; also is a good hair grower. I shall continue to use it as long as it gives such perfect satisfaction."

Ask for PARISIAN SAGE Hair Tonic and firmly refuse substitutes. The girl with the auburn hair is on every package and your druggist will tell you that Parisian sage is a splendid hair dressing free from poisons, lead or other dangerous ingredients. Evans' Drug Store guarantees it.

DECLARATION OF WAR FORESTALLS PEACE ACTION

London, Oct. 8.—The declaration of war on Turkey reported from Cetinje to have been made today by the kingdom of Montenegro forestalled action of the European powers in favor of peace by only a few hours.

The ambassador at Constantinople and the ministers at the capitals of Bulgaria, Serbia, Greece and Montenegro have been instructed to make representations on behalf of their governments this morning and a dispatch from Belgrade affirms that their program had been carried out there.

It is thought likely that other Balkan states may decide to follow the action of Montenegro and throw their arms into Turkey. The persecution of the Christians in Albania and Macedonia and the demand of the Balkan states that those provinces should be granted different government are the main causes of the crisis.

London, Oct. 8.—The outbreak of war in the Balkans caused no surprise in London. The official world here now awaits the announcement that Bulgaria, Serbia and Greece have broken off diplomatic relations with Turkey. Should a general state of war be declared today experts consider that no important engagements can be expected before October 15 and perhaps another week after that date.

WAYNE M'VEIGH BEFORE CLAPP COMMITTEE

Washington, Oct. 8.—Another chapter was added to the disputed story of the so-called Harriman \$240,000 contribution to the Republican campaign of 1904, when Wayne McVeigh of Philadelphia, a former attorney general, today told the Clapp committee of a telephone conversation H. McK. Twombly had with the late E. H. Harriman in 1904.

Mr. McVeigh said that while in Mr. Twombly's office, in 1904, the latter had a telephone talk and told him that it was with Mr. Harriman; that Mr. Harriman had said he had been to the White House and that President Roosevelt had expressed anxiety that a \$240,000 fund be raised and that Mr. Harriman had agreed to it. Mr. McVeigh testified that he had been given to understand that in making contributions the Vanderbilt railroad interests, Henry C. Frick the coal and steel interests, and John D. Archbold and the late H. H. Rogers the Standard Oil interests.

THE UNDERTAKER

When life is done—this life that galls and frets us, this life so full of tears and doubts and dreads—the undertaker comes along and gets us and tucks us neatly in our little beds. When we are done with rolling, hoarding, giving, when we are done with drawing checks and breath, he comes to show us that the cost of living cuts little ice beside the cost of death. I meet him daily in the street or alley, a cheerful man, he dances and he sings, and we exchange the buoyant jest and sally, and n'er discourse of grim, unpleasant things. We talk of crops, the campaign and the weather, the I and R, the trusts—this nation's curse; no graveyard hints while we converse together, no reference to joyrides in a hearse. And yet I feel—perchance it is a blunder—that as I stand there, rugged, hale and strong, he'd like to ask me, "Comrade, why in thunder and other things do you hang on so long?" When I complain of how the asthma tightens upon my lungs and makes me feel like a wreck, it seems to me his face with rapture lightens, smiles stretch his lips and wind around his neck. And when I say I'm feeling like a heifer turned out to grass or like a humming bird, he heaves a sigh as gentle as a zephyr, yet fraught with pain and grief and hope deferred.

FIRST THINGS

The first public market in America, still in existence, was Washington Market, in New York, founded 100 years ago. A celebration of the centennial will be commenced there today and will continue five days, when all the stalls will be decorated with flags and bunting and brilliantly illuminated by night. Probably the oldest market in the world in Smithfield Market, in the heart of London, on the site of an old cattle market that dates as far back as 1550. Until 1861 the slaughtering of cattle, sheep and hogs was carried on extensively at Smithfield, but public protest led to the abandonment of the practice. Markets for dead meat and poultry and fruits and vegetables now occupy the site. Perhaps the greatest market in the world is that at Ninji Norvord, Russia, where East and West meet and exchange their wares.

Value of Moral Earnestness.

Moral earnestness always prevents a man from becoming a cynic in society.

Sore Throat Wisdom

If every mother could realize the real danger that lurks behind every case of sore throat, she wouldn't rest until she had effected a cure every time a child has it.

Your family physician will verify the statement that it is a positive fact that every child with sore throat is in immediate danger of contracting Croup, Quinsy, Tonsillitis or Diphtheria, and is not removed from that danger until the throat is cured. Think of it!

Liniments or outward application of medicines do not and cannot cure the ailment, though they may offer temporary relief. Neither can you cure sore throat with a cough syrup or a cold cure.

To cure, you must get at the seat of the disease, removing the cause. Nothing does that so quickly, safely and surely as TONSILINE. A single dose of TONSILINE taken upon the first appearance of sore throat may save long weeks of sickness, great expense, worry, and death. TONSILINE is the stuff in time.

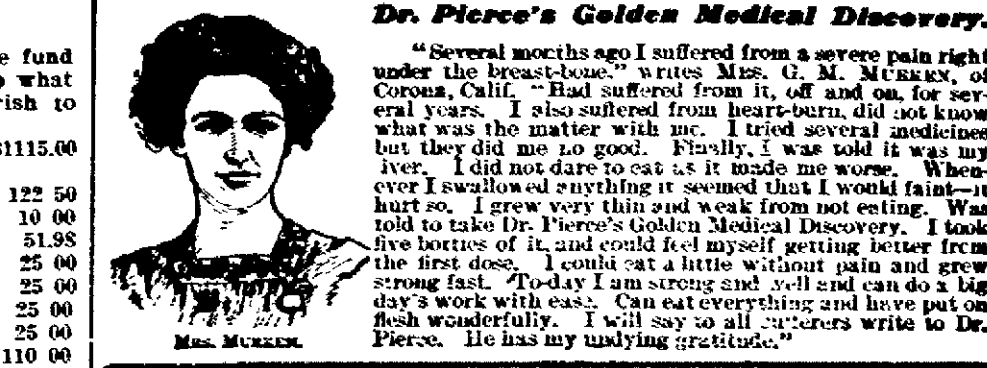

Use a little sore throat wisdom and buy a bottle of TONSILINE today. You may need it tomorrow.

TONSILINE is the standard sore throat remedy—best known and most effective and most used. Look for the long necked fellow on the 25 or 60 cent sized bottle when you go to the drug store to get it.

The Tonsiline Co., Canton, Ohio.

NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body." He continues, "as we may be said to live (through) the stomach." He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breast-bone," writes Mrs. G. M. McKern, of Corona, Calif. "I had suffered from it, off and on, for several years. I also suffered from heart-burn, did not know what was the matter with me. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not dare to eat as it made me worse. When ever I swallowed anything it seemed that I would faint—it hurt so. I grew very thin and weak from not eating. Was told to take Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat a little without pain and grew strong fast. To-day I am strong and well and can do a big day's work with ease. Can eat everything and have put on flesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."

WORK THAT TELLS.

Plenty of It Has Been Done Right Here in Newark.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Newark. People who testified years ago to relief from back-ache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Newark sufferer longer doubt the evidence?

Mrs. Charles Walton, 74 S. Second street, Newark, O., says: "I can vouch for the truth of the testimonial, given by a member of my family in 1904, recommending Doan's Kidney Pills. They certainly are a wonderful kidney medicine."

LOCAL TYPOGRAPHICAL UNION SECURES SUPPORT OF EVANGELIST LYON IN THE OBSERVANCE OF "TUBERCULOSIS SUNDAY"

Evangelist Lyon has promised his support to the members of Typographical Union, No. 69, of Newark, in the observance of "Tuberculosis Sunday, October 27th, and will devote the afternoon meeting on that day to an address before the labor organizations of the city. It is Dr. Lyon's intention to emphasize the need of proper sanitation in the homes, and the cultivation of a better standard of living generally throughout the community if advances are to be made in the elimination of the "Great White Plague."

The local typos held a regular meeting yesterday afternoon and appointed a committee consisting of S. O. Riggs, chairman, James McCough and Louis Kussmaul, to lay the matter before Dr. Lyon. This was accomplished later in the evening and the evangelist expressed his gratification in being allowed to assist such a worthy cause. The Typographical Union is one of the foremost advocates of the battle against tuberculosis, and maintains a hospital and camp for victims of the disease, near Colorado Springs, Colo.

The Typographical Union will invite the members of every labor organization in the city to participate with them in the services on October 27th, and a mammoth crowd of men will no doubt be present to hear Dr. Lyon's address.

HOW SHE ACQUIRED "FEMINE CHARM."

A nicely-dressed woman sat beside me in the train. Everyone stared at her. I couldn't help doing the same. It was not her beauty of feature that held our eyes, nor her costume, but there was something about her face and expression—I risked it and asked: "Would you mind telling me how you keep your complexion so dazzlingly pure? Don't think me impudent, but you seem over 30 yet haven't a line in your face, and your cheeks are quite peach-like. How do you do it?"

Laughing, she said: "That's easy: I remove my skin. Sounds shocking, doesn't it? But listen. Instead of cosmetics I use only pure mercurized wax, procurable at any drugstore. I apply this nightly, like cold cream, washing it off in the morning. This gently absorbs the soiled, weather-beaten film-skin, without pain or discomfort, thus revealing the fresh, clear underskin. Every woman has a beautiful complexion underneath, you know. Then, to ward off wrinkles, I use a face bath made by dissolving a pinch of borax (one ounce) in one-half pint witch hazel—a harmless astringent which tones the skin wonderfully. Very simple, isn't it? I thought so. I'm now trying her plan and like it immensely. —Millicent Brown in The Story Teller.

MOST SICKNESS COMES FROM WEAK, INACTIVE KIDNEYS

Recent Reports Show Hundreds Suffer With Kidney Troubles and Don't Know It.

There are scores of nervous, tired, run-down people throughout the city suffering with pains in the back and sides, dizzy spells, weaknesses of the bladder, (frequently causing annoyance at night) who fail to realize the seriousness of their troubles until such conditions as chronic rheumatism, bladder troubles, dropsy, diabetes or even Bright's disease result.

All this is due to weak, inactive kidneys. The kidneys are the filters of the blood, and no one can be well and healthy unless the kidneys work properly. It is even more important than that the bowels move regularly.

If you suffer with such symptoms don't neglect yourself another day and run the risk of serious complications. Secure an original package of the new discovery, Croxone, which costs but a trifle, and commence its use at once. When you have taken a few doses, you will be surprised how differently you will feel.

Croxone cures the worst cases of kidney, bladder trouble, and rheumatism, because it removes the cause. Pills, tablets and other remedies, merely give temporary relief at the best. Croxone cleans out all the poisonous waste matter and uric acid that lodge in the joints and muscles, causing rheumatism, soothes and heals the bladder, and quickly effects a permanent, positive, lasting cure.

You will find Croxone different from all other remedies. There is nothing else on earth like it. It matters not how old you are or how long you have suffered, it is so prepared that it is practically impossible to take it into the human system without results.

You can secure an original package of Croxone from any first class druggist. All druggists are authorized to personally return the purchase price if it fails to give the desired results the very first time you use it.

LYON ARRANGES FOR SPLENDID SERMONS

Tomorrow's services at the Lyon tabernacle prove to be highly interesting and should attract large audiences. Dr. Lyon has announced that he will talk on "The Sin of Worry" at the afternoon meeting and promises to give a message that is particularly applicable to the overworked housewives of Newark. His sermon at 7:30 o'clock will be on "Judas Iscariot," and has been praised by the press as one of the strongest in his revival series.

The usual song services, directed by Prof. R. E. Mitchell, will prevail, with special chorus work by the

Health and Beauty Advice

BY MRS. MAE MARTIN.

D. M. S.: Sallow complexion, liver blotches, pimples and other eruptions of the skin indicate a need of a good blood-tonic and liver-regulator. Use one ounce of Kanone in one-half pint of alcohol (not whiskey), add one-half cupful of sugar and enough water to make a quart. Take one-half cupful three times before each meal. Kanone purifies the blood, arouses the liver, cleans the skin, restores lost appetite and tends to purify the system.

J. W.: You can add greatly to your beauty if you rub paraffin on your eyebrows with your finger. This makes them grow thick and silky. Applying paraffin at last-roots with thumb and fore-finger makes them grow long and silky. Last caution—don't get paraffin where no hair is wanted.

Mrs. D.: Those ugly hairs on your face can be removed with a paste made of powdered gelatine and water. This paste should remain on the hairy surface for three minutes, then rub off with the skin and every trace of hair has vanished. The gelatine treatment never fails and leaves the skin free from spots or blotches.

Appetite: The affliction of over-fatness is to be deplored. Any age, but it is especially calamitous for young and pretty women to become too fat in these days when fashion decrees the slender figure. The only correct, sure and safe way to reduce your weight is to eat the rate of a pound a day until you reach normal. If you dissolve four ounces of paraffin in a pint of hot water and take a tablespoonful before each meal, you can lose pounds from any first class drug. It is a harmless fat dissolver and has no effect. It makes one look and feel younger, brighter, more buoyant and energetic.

Fannie R.: To be sure a face-louche is far better than face powder, but you will have to be careful what you use. Most face powders are made of poisonous ingredients that are likely to ruin your complexion. Try this inexpensive one which is all right. Dissolve one ounce of paraffin in a half-pint of water, or hot water and add two teaspoons of glycerine. Rub this on your face, neck and arms, and it will give you skin as real as pie, glowing, delicate tone. The action does not slow or run off like powder and will remove that skin you look from your skin. This preparation is a wonderful skin-beautifier and I find it excellent for rough, red or sallow skins, freckles and skin-pimples.

Mrs. David O.: The only reason why many hair and scalp specialists are so against frequent shampooing is the danger that it comes through the use of soap and inferior shampoos which contain "free" alkali or other ingredients injurious to the hair. If your hair is thin, very dry or oily and looks so dull, "stringy" and unkempt, wash it with Kanone. It cleanses the scalp with a teaspoonful of canthrox dissolved in a cup of hot water, then rinsing thoroughly with clear water. You can use this shampoo as often as you like, as it will benefit your hair and scalp wonderfully. It will relieve that itching sensation and make your hair beautiful, fluffy and appear twice as thick. This shampoo dries quickly without any danger of streaking or discoloration.

Mrs. H. L.: If you only knew what is in the cheap, greasy cold creams you have been smearing on your face you would never use them again, as they are really harmful. Never use anything but a greaseless cream. If you don't want hair on your face, as a small expense you can prepare an excellent complexion cream-jelly by stirring together and allowing to stand over night two ounces of glycerine, one ounce almond and one-half pint cold water. Use this regularly and it will clear up your complexion wonderfully by removing all dirt and oil. It will also remove quickly those blackheads and other effects of hot weather which make the skin look so rough and the skin of which you speak. This is the only reliable cream I have ever found for removing wrinkles without leaving the skin young and rosy after massaging and for reducing the size of large dilated pores.

Victoria: Your scalp needs a good stimulating ointment. Hair-tonsics to remove the dandruff, stop irritation and falling hair. Get from any drug store one-half pint of alcohol (not whiskey), add one ounce of paraffin and mix with one-half pint water and you will have a much better tonic than any of those ready-prepared tonics you have been using. Rub your hair daily and twice a week apply this tonic to the scalp, rubbing it in gently. This will do wonders for your hair. It keeps falling hair and puts your scalp in a healthy condition. This tonic will make your hair soft, clean and beautiful. It keeps the scalp clean by frequent shampooing with canthrox and you will not have that itching trouble with your hair.

And S.: Your headaches and general despondent feeling, very likely come from your weak inflamed eyes. You should attend to the matter immediately or on any have to wear glasses permanently. Get an ounce of crystals and dissolve it in a pint of water. Put a few drops in each eye two or three times a day. I am sure it will strengthen your eyes wonderfully and remove your eye troubles generally. And it is so splendid a remedy for all eye troubles that have to do with the eyes and is fine for all eye troubles that have that over-worked feeling.

Consider the Dentist

BEADS of perspiration stood on the dentist's forehead. The woman in the chair was groaning and shrieking, and, whenever she got a chance, beseeching the dentist not to hurt her so. At last she departed, and spent the rest of the day telling her family and friends how cruelly she had suffered and what a brute the dentist was.

Her place in the chair was taken by a lugubrious looking man. "I expect you're going to hurt like thunderation," he said. "I guess not," replied the optimist of the forceps.

The man opened his mouth, revealing tobacco-discolored fangs and pouring forth a breath that certainly needed disinfecting.

Thus went the dentist's day and endless other days that crowded on the heels of each other.

A procession of patients filed into the chair, each dejected, each sure the dentist was going to hurt, and that the dentist was to blame for the pain. For we take our tooth troubles to the dentist, we rush there as fast as train or trolley can carry us, if a tooth is aching, but nevertheless, we feel nothing but a sense of grievance against the dentist. And this sense of grievance increases when the bill comes in.

Yet the dentist stands patiently at his post all day, and looks into gaping mouths with teeth of many shades, shapes and conditions, with no teeth at all, or with forlorn stragglers here and there that show the marks of war,—truly not a pleasant landscape to gaze at from nine until four. He listens to weeping, to wailing, to groans, to pleading, to invective. And through it all he carefully bores and plumbs and fills in and does his utmost to make life once more worth living.

Not many of us ever look at the dentist's chair from the dentist's point of view. We see it only from our own, as a place of torture and of expense that we always grumble at.

The dentist is really one of our best friends, but we seldom entertain a hearty, cordial feeling toward him. Rather, we look upon him as an affliction that must be endured.

Daddy's Bedtime Story
The Halloween Fooling Of Mr. Jay and Mr. Chipmunk

SAID daddy to Jack and Evelyn. "Now, if you will sit very still I will tell you a story about the squirrel family's Halloween."

"Mr. and Mrs. Squirrel meant to have a party for their young ones. They had gathered chestnuts and hickory nuts and walnuts and beechnuts and hazelnuts, the largest and sweetest of their kind. They stored them in a hollow tree."

"Now, Mr. Jay, who lives in the woods and is always peering and spying around to find out all that goes on, noticed Mr. and Mrs. Squirrel running up and down to the hole in the tree, and so he looked in there."

"He hid when he heard Mr. and Mrs. Squirrel come running up the tree, and he listened as he heard them say:

"How the pile of nuts is growing! We shall be able to ask all the squirrels of the neighborhood to our party."

"Hub! Wasting all those nuts on a squirrel frolic!" grumbled Mr. Jay.

"Then he laughed. 'Halloween? I'll play a Halloween trick on 'em.'"

"So he went off and told a chum of his, Mr. Chipmunk, about the nuts and the joke. The two laughed and chattered over the fun they were going to have."

"Mr. Jay helped himself to the nuts whenever he felt like it, but the night before Halloween Mr. Chipmunk went to work and carried off every one to a hole he had in the fence corner. Mr. Jay and Mr. Chipmunk meant to have a Halloween feast for themselves."

"Mr. and Mrs. Squirrel never found out that their nuts were gone until just before the young squirrels were expected to the party."

"Whatever shall we do?" the two squirrels cried in despair. They went at once to Judge Owl and told him their troubles. The judge said:

"I know where the nuts have gone. He had been awakened from his nap in the next tree by the chattering of the jay and the chipmunk when they were carrying off the nuts. He ordered Policeman Coon to go after the thieves, and the policeman burst into the fence corner just as they were laughing over the first bite of nuts."

"Mr. Jay got away, but Mr. Chipmunk was taken to court, where Judge Owl ordered him to bring back twice as many nuts as he had taken. Mr. Chipmunk groaned, for he had a rich store in his cellar which he had put there for winter. Judge Owl would not let him off, so the chipmunk had to spend the evening fetching back the stolen nuts and hearing all the jokes that were made about his and Mr. Jay's unfortunate Halloween joke. And the squirrels had a fine party."

Bore Large Peach.
Silas Welsh, 48 South Fourth St., is the owner of a small peach tree that has gained quite a reputation for both the size and abundance of the fruit it produces. Yesterday the tree was stripped of its load and a number of the specimens had an astonishing avoirdupois, one peach weighing 13 1/2 ounces. The peaches are the Yellow Freestone and are grown on a tree that is neither fertilized nor sprayed.

NEURALGIA, SORENESS
ACHES AND PAINS GO

Big Box of Begg's Mustardine for
25 Cents! Better than a Mustard Poultice and Will Not Blister.

Keep it in the house — it never
fails — a box will do the work of 50 dirty mustard poultices and do it better.

Just rub it on and speedily banish
headache, Earache, Backache or Toothache. Use it to draw the inflammation from Soreness, Sore Muscles, Lameness, Stiff Neck or any ache or pain.

It's great for Swollen Rheumatic
Joints and Lumbago and to draw the burning soreness from Corns, Bunions or Callouses nothing can compare with Begg's Mustardine. Rub it on at night for cold in chest, sore throat, tonsillitis, bronchitis and pleurisy, and in the morning all distress has vanished. Be sure it's Begg's. Sold by druggists everywhere. Guaranteed by Evans' Drug Store.

CHILDREN NEED EXTRA
CARE IN HOT WEATHER.

Summer Heat Dangerous to Lit-
tle Ones if Bowels Are Neglected.

The mother cannot do better for
her children than to train them from infancy to regularity of the bowels. Chronic constipation in later life can be avoided if the child learns early the need for a daily evacuation of the poisonous stomach waste.

There will, of course, be times
when the little one will become constipated and bilious. In hot weather, especially, immediate attention is necessary, as much serious illness results from inactive bowels. Salts, cathartics, purgatives and similar drastic irritants are harsh and violent and only bring temporary relief while disturbing the whole system. A gentle, pleasant bowel stimulant like Dr. Caldwell's Syrup Pepsin is far preferable. Syrup Pepsin contains no narcotic drug, being composed of simple laxative herbs combined with pepsin, and acts gently, in a natural manner, on stomach, bowels and liver. By thoroughly cleansing the bowels and removing the foreign matter that irritates and inflames the tissue, it will quickly check the summer diarrhoea that is so weakening in its effect.

Druggists sell Dr. Caldwell's Syrup
Pepsin for fifty cents and one dollar a bottle, the larger size being intended for families. A free trial bottle, postpaid, can be obtained by writing to W. B. Caldwell, 408 Washington St., Monticello, Illinois.

CAN YOU SAVE?
Certainly you can save, if there is an incentive. Lots of women in Newark are saving wrappings from Easy Task soap. You know if you send twenty-five of the wrappings and a two-cent stamp to the Hemet Brothers Soap Company, Dayton, Ohio, they will send you a beautiful art reproduction, all ready for framing. Some folks go to a picture store and pay a big fat price for the same picture. Your grocer keeps Easy Task soap or he will keep it if you ask for it.

BULL FIGHTER
ARRANGING FOR
AN EXHIBITION

Senior Enrique Robles, the Spanish
bull-fighter who has been stopping at the Sherwood Hotel in this city, left Tuesday noon for Mansfield in response to a letter requesting him to come to that city to make arrangements to give an exhibition there.

In talking to an Advocate man
Tuesday morning he stated that from Chicago he had received the promise of four western bulls, each one guaranteed to give any opponent an interesting time, and that if the arrangements could be made here he would have two of them sent to this city.

When asked concerning the success
of his efforts to interest Newark parties in the projected exhibition, Senior Robles said that it was his intention to manage the affair himself and to give a liberal percentage of the gate receipts to some charitable institution, preferably the hospital.

"My exhibition," said he, "is NOT
brutal. The bulls are not tortured nor abused—the man and not the animal taking all the chances. Alertness, agility and quickness on my part are pitted against strength, strategy and speed on the part of the bull."

After meeting with the Mansfield
parties Senior Robles will return to Newark and endeavor to complete the arrangements for a local exhibition, which, he says, he will give either in the ball park or at Moundbuilders Park.

Lad is Dismissed.
William McNeely, aged 17, charged with the theft of the Brush runabout from the Dietz & Reinhold shop in Elmwood court, was dismissed from custody in police court Tuesday morning.

Meeting Postponed.
The Ladies Aid society of the First Congregational church will not meet on Thursday of this week, but on Monday in the church parlors at two o'clock.

The Old Man of the Mountains

ON a throne in the huge upper room of a Syrian mountain castle sat an aged man whose snowy beard fell to his waist. Grouped about him were swarthy orientals, with the wild eyes of fanatical potates. Before him stood the ambassador of the Sultan. The ambassador had been sent to demand tribute and submission on the part of the white-haired potentate. In reply the aged man turned to one of the soldiers at his side.

"Stab yourself to the heart," he said quietly.

The soldier obeyed without a moment of hesitation. Turning at random to an attendant, the white-haired man said:

"Throw yourself from that window." In an instant the attendant had hurled himself to death on the rocks far below. Then the white-haired man said to the horrified ambassador:

"Return to your master, the Sultan. Tell him what you have just seen. Tell him also that I have 70,000 followers who are ready to obey me to the death. Ask him if he thinks he can make me pay tribute or own any sultan as my lord."

This is but one of a hundred dramatic tales told of Hassan-ben-Sabah, known and dreaded all over the world as "The Old Man of the Mountains." His title was Sheikal-Jebel, "Sheik" meaning "chief," "boss," or "old man." (Even in those days the "boss" was apparently called "the old man.")

Hassan was the founder of a strange, fanatical sect, whom he formed into a sort of mock religious order, and whom he controlled with seemingly supernatural tricks, by hopes of a gaudy paradise and by confusing their minds with false theology. In this way he made them his obedient slaves, eager to do his bidding and to die at his command.

As a lad, in a Persian school, Hassan formed a partnership with two of his classmates, Omar and Nizam. They agreed that whichever of them might in later years rise to power should befriend the other two. Nizam became Grand Vizier of Persia. He gave a court pension to Omar (who is best known to posterity as Omar Khayyam, author of "The Rubaiyat"), and to Hassan he offered high office. Hassan used Nizam as a stepping stone to his own success, then murdered him and his son.

Next he captured a series of mountain fortresses in Syria, Egypt and Persia and began his terrible rule. He induced young men to join him by inviting them to his castle, drugging them with hashish and letting them come to their senses in a wonderfully beautiful garden. There, after a glimpse of the place's delights, they were again drugged and carried back to the castle. On coming to their senses they were told they had really visited Paradise in a vision and that all its joys should one day be theirs if they would serve Hassan faithfully.

These fanatics were sent forth to slay all Hassan's foes or any other persons whom he thought it best to get rid of. The Old Man's name became a horror, everywhere.

The Sultan strove to crush Hassan—and was mysteriously killed. Other potentates sought the assassin's destruction. Each met with a like fate. Armed forces of the government were driven back from the strong mountain castles. Individual foes died, leaving no clue to their slayers. No precaution could save a victim. From his eyrie on the hilltops the grim old man of the mountains sent forth his murderous emissaries on their fearful missions. For a man marked by them for death there was no hope. Once, the Sultan, Sanjar, who had vowed the assassin's ruin, awoke in the morning to find a dagger sticking in the floor beside his bed. On the weapon was a scroll to the effect that next time, the blow would be struck closer. The Sultan promptly made peace with Hassan.

Had the old man of the mountains confined his atrocities to the wholesale killing of his own enemies, he would have passed into history as a fanatical monster; not as a mere blackguard. But he is said to have reaped a very tidy profit from his crimes. Rulers and men of note paid him huge sums to buy their own safety. Others paid him equally large amounts to murder their private or political enemies.

Hassan's two sons displeased him and he killed them with as little regret as though they had been strangers. He also wrought havoc in the ranks of the Crusaders. At last, in 1124, at the age of 90, he died. The horrible "Order" that he had formed was later destroyed and its chiefs were put to death.

The most knowing man in the course of the longest life will always have much to learn; and the wisest and best much to improve.—Shakespeare.

AMUSEMENTS

THE POLAR PICTURES.
That everyone aboard the ill-fated Titanic might have been saved had advantage been taken of the very agency that sent the great ship to the bottom of the Atlantic is the startling theory advanced by the Arctic explorers of the Carnegie Polar expedition. These men, all hardened in the service of the far north, told, when they returned from their long cruise among the ice floes of the northern seas, of scores of rescues effected through the medium of the floating ice. In obtaining the remarkable moving pictures of the wild animals of the polar area, on exhibition at the Auditorium Wednesday and Thursday, they made themselves of the ice floes. Boldly trusting to these precarious burden carriers, they left their small boats and floated quietly toward some group of walrus, for instance, until they landed within photographing distance. Icebergs, their origin, character and dangers they present are all illustrated by the Carnegie pictures. While

the primary purpose of the Carnegie expedition under command of Capt. F. E. Kleinschmidt, was to obtain specimens of the wild life in the frozen far north, and scientific data relating thereto, the films show the deadly "Phantom Fleet" in process of formation and development, and also the value of an ice floe as an emergency life saving device. Matinee daily.

THE BOHEMIAN GIRL.
Nothing succeeds like success, and this is once more demonstrated in the case of the Aborn Opera company's revival of that most popular of operas "The Bohemian Girl" (in English). which is now in its second successful year, and which comes to the Auditorium on Saturday, Oct. 12, matinee and evening. The secret of the phenomenal success of Balfe's masterpiece is not hard to find, when one recalls such beautiful ballads as "The Heart Bows Down," "Bliss Forever Past," "I Dream I Dwell in Marble Halls," and "There You'll Remember Me," and various others number in the total more than any other standard opera contains. It is said the Messrs. Aborn have given to "The Bohemian Girl" a scenic equipment comprising six magnificent scenes, among which is Count Arnheim's Palace in the mountains of

Austro-Hungary, a picturesque Gypsy Camp, a street fair and the Marble Halls. Previous to the Aborn's revival of this opera no American managers had ever undertaken the task of treating it spectacularly, to which it lends itself so perfectly. For instance, in the first act they employ a score of horses in thrillingly melodramatic style, and in the second, in the Gypsy Camp, are seen a band of real Gypsies with their horses, dogs, chickens, geese and swine, while in the street fair scene the Hassen Ben Ali troupe of whirlwind acrobats are among the unusual features shown. In the interpretation of the opera is employed an unusually large company, which includes besides an exceptionally strong double cast of grand opera soloists as principals, an immense chorus, corps de ballet, and a number of special performers. The most important in the cast is Helena Merrill as "Arlene," Nella Brown as the "Gypsy Queen," Roy Pilcher as "Thaddeus," Wilmer C. Goodwin as "Count Arnheim," Detmar H. Poppin as "Devilshoof," Stephen Stott as "Florestine." The special orchestra is under the direction of George Lyding. Seat sale opens Thursday at 2 a. m.

MARPLE-NORRIS MUSICAL COMEDY CO.
The Marple-Norris Musical Comedy company will appear at the Auditorium three nights, commencing Monday, Oct. 14, with a matinee on Wednesday. The Norrises have both been on the stage in legitimate drama and musical comedy, which has been of decided advantage in their work, in that it has enabled them to handle the comedy of their act with the discrimination and technique of the trained players. The company will open their engagement in "A College Girl," which will be followed by "Miss Idle" on Tuesday, and "Mascotte" on Wednesday. Popular prices of 15, 25, 35 and 50 cents will prevail.

Mazie Rowland has a clever little monologue, partial musical, that won her considerable applause. Her solo work might be improved upon, but it would be hard to find a better impersonator of child voices. Her stories are charming and well told—which is also quite unusual in a female entertainer, or any other female for that matter! Fitch Cooper, the "musical rube," is "twenty minutes of laughter." He has the applause of his audience from the minute he appears until he takes off that wig and shows that he is really human and possessed of good common sense. Cooper is a big laugh winner and the Orpheum needs more like him to keep its popularity. Myrtle and Orth, who burlesque grand opera, although the title is a misnomer, really have an interesting little act, quite out of the ordinary. They offer a clever burlesque of Uncle Tom's Cabin, which is interspersed with a number of popular songs by the feminine end of the combination. Incidentally, the aforesaid F. C. has a splendid voice and a mighty attractive appearance that seems a little too good for the act she is in.

LOOKING FOR A WOMAN BURGLAR AT ZANESVILLE
Zanesville, O., Oct. 3.—Within the last ten days four residences have been entered and robbed of feminine finery, diamonds, jewels and silverware. The homes of E. F. O'Neal, on Brighton boulevard, and H. E. Wetherald, Graham Bailey and Joseph Ford were the ones looted. In each instance entrance was gained through the kitchen doors with a skeleton key. All were daylight robberies. An aggregate loot valued at \$2000 was secured. The police say a woman is responsible for the thefts.

"Our Personal Guarantee to all Skin Sufferers"
Frank D. Hall.

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves, you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell, all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or better, we want you to try a full size bottle of D. D. D. Prescription. If it does not do the work, this

bottle will cost you nothing. You alone to judge.

Again and again we have seen how a few drops of this simple wash applied instantly, and the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D.

We have made fast friends of more than one family by recommending this remedy to a skin sufferer here and there and we want you to try it now on our positive no-pay guarantee.

TOMORROW IS FIRE PREVENTION DAY IN OHIO

Newark People Urged to Act and the
Schools Invited to Observe
the Occasion.

Tomorrow, Oct. 3rd, will be Fire Prevention Day in Ohio, that date marking the 40th anniversary of the great conflagration in Chicago, which is said to have been due to a trivial piece of carelessness. Governor Harmon has issued a proclamation requesting that all public authorities, civic and commercial bodies, and all citizens interested in the conservation of property, endeavor to educate the people against fire dangers, and, therefore, all citizens of Newark are requested to observe the day by carefully inspecting their premises and removing any dangerous material and correcting any hazardous condition that may exist. The Governor desires that especially in our schools shall the importance of this great subject be impressed upon the minds of the boys and girls by appropriate exercises.

Fully 50 per cent of the fires in this country are easily preventable. The two annual "clean-up" days in Newark have greatly lessened the fire danger, but there is need of further effort. The Governor observed in his proclamation: "A careful authority has compiled the fire loss for the first seven months of this year in the United States and Canada as being \$149,591,350 as compared with a loss of \$154,922,900 for the same period last year. While this shows a reduction, yet it is comparatively unappreciable. The people have borne this loss, not the insurance companies. The companies have merely collected from all insured property owners a portion of the money necessary to cover the loss and have distributed it among those whose property was destroyed. Let this fact sink into the mind of every insurer."

The cost of fires each year in this country is one-half the cost of all the new buildings erected in a year. The annual per capita fire waste in the United States is \$2.51. In Europe it is 33 cents.

Every citizen of Newark is invited and urged to observe Fire Prevention Day tomorrow by inspecting his premises by removing rubbish and inflammable material, by arranging for the correction of electrical defects, and by the elimination of rubber hose from gas pipes.

This Will Stop Your Cough in a Hurry

Save 50 by Making This Cough
Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready made for \$2.00. A few doses usually conquer the most obstinate cough, stops even whooping cough quickly. Simple as it is, no better remedy can be had at any price.

Mix one pint of granulated sugar with 1 1/2 pints of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for hoarseness, croup, bronchitis, asthma and all throat and lung troubles.

The effect of Pinex on the membrane is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this formula.

This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

IS DIRT GOOD FOR BOYS?

Some folks say: "Oh, let the boy play in the dirt. It is good for him. I wouldn't give a cent for a boy that keeps his clothes clean." That may be all right, but what about the boy's mother? Getting the dirt out of the clothes by the use of old-fashioned yellow soap and slow washday methods is hard labor. In the boy's mother uses Easy Task Laundry soap, which does half the work for her, and which reduces washy labor by fifty per cent. It is dirt-free. Easy Task is five cents a cake and is the greatest nickel's worth of soap ever sold.

Effective Home Remedy for Tuberculosis

It is a serious matter when the lungs are affected. A trip away or to a sanatorium is not only expensive, but it involves separation from home and friends. Some are cured, but few are really returned. Eckman's Alternative is effective for home treatment. For example:

231 Atlantic Ave., Haddonfield, N. J. "Gentlemen: In the fall of 1905 I contracted a very severe cold, which settled on my lungs. At last I began to raise sputum, and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alternative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1906, I resumed my regular occupation, having gained 27 pounds, fully restored to health. It is now five years since my recovery has been effected, and I cannot praise Eckman's Alternative too highly. I have recommended it with excellent results."

(Signed) W. M. TATEM.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, habit-forming drugs. Ask for booklet telling of recovery, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists in Newark.

STARTED TO CLEAN OUT THE CAMP

Homer, Oct. 3.—As a result of a drunken orgie lasting all day Sunday in the camp of gas field employees about two miles north of this village in Knox county, William Kelley, a "pipe liner," is in a serious condition from knife wounds and William Snyder, another employee is in the Knox County jail charged with cutting to kill. The men in the camp had been drinking all day when Snyder suddenly declared his intention to clean out the camp. He started in with a big knife and Kelley was his victim. He was cut on the cheek, stabbed over the heart and once in the back, all the wounds being serious. The camp was soon deserted and physicians and officers from Mt. Vernon were called. It is believed that the wounded man will recover.

There Are Two Good Reason Why We Should Have Your Business.

FIRST—Our association is not established for profit but for the mutual benefit of its members. Its earnings after actual expenses are paid are divided pro-rata among its members.

SECOND—We protect our members savings by only loaning money on real estate after the property has been inspected by three members of our board of directors and has been approved by the Board. As a further precaution after the property has been appraised at its actual valuation only two-thirds of the amount is loaned to take care of any possible shrinkage.
